Home: 264-N, Model town extension, Lahore, Punjab Pakistan., Lahore, Pakistan

---

Technical Skills

- **Programming:** Python, JavaScript, C++ (Basics)
- **Web Technologies:** HTML, CSS, JavaScript, WordPress
- **Frontend Frameworks:** React.js, Next.js
- **Backend Frameworks:** Node.js (Express.js), Django
- **Databases:** PostgreSQL, MySQL

Education

BS Computer Science – Gold Medalist

Apr 2021 – Mar 2025

Minhaj University Lahore / Lahore, Punjab, Pakistan | **CGPA: 3.84**

Developed a strong foundation in computer science principles,

- Key Coursework: **Data Science**, Machine Learning, Artificial Intelligence, Deep Learning, Data Mining, Database Systems, Web Technologies.
- Developed a strong foundation in software engineering principles, specializing in object-oriented programming **(OOP)**, data structures and algorithms **(DSA)**, and database technologies.
- Final Year Project: ***CardioGraph Pro*** – Developed a machine learning pipeline to analyze 20,000 ECG signals for early heart disease prediction.
- Gained practical experience in **web technologies** and **operating systems**, critical for working in cloud-based data warehousing environments and real-time data processing pipelines.

Professional Experience

Web Developer

June 2025 – Dec 2025

The GenomeX, PITB Incubation Wing | Lahore, Punjab, Pakistan

- Built a website with LIMS functionality for Genome X to showcase their advanced genetic services. Focused on creating user-friendly digital solutions to support their mission of accessible and affordable genetic testing.

Financial Analyst

Sep 2023 - June 2025

Omega FinTech | Remote

In my role as Finance Consultant at Omega FinTech

- Analysed and processed financial transaction data for the drop shipping team to ensure accuracy and optimize payment workflows.

- Used Excel for data cleaning, validation, and reporting, improving financial data accuracy and operational efficiency.

Data Engineer June 2024 – March 2025

As a Data Engineer at Intime Study Advisors, I have contributed to improving the data lifecycle by automating the extraction and transformation of raw data. My work involved building scalable ETL pipelines, optimizing data processing workflows, and ensuring data quality. By integrating data from various sources, I significantly enhanced operational efficiency, contributing to better data- driven applications.

- Automated web scraping scripts, streamlining raw data integrations from multiple sources, and increasing data extraction efficiency from 1 website per week to 5 websites per day, resulting in a 100% improvement in processing speed.
- Designed and implemented an ETL pipeline using Python, transforming, cleaning, and storing data across multiple databases, thereby enhancing data processing efficiency and ensuring consistent, high-quality data.

WordPress Developer | shopify Developer | Wix Developer

Feb 2023 – Sep 2023

IT INNOVATION INC| Lahore, Punjab, Pakistan

- Developed multiple WordPress, Shopify and Wix websites for IT INNOVATION INC clients, focusing on creating user-friendly, responsive, and visually appealing designs tailored to meet diverse business needs. Ensured high-quality digital solutions to enhance client satisfaction and online presence

WordPress Developer

Jan 2022 – Feb 2023

Webb Solutionz | Lahore, Punjab, Pakistan

- Worked on multiple WordPress websites for Webbsolutionz clients, focusing on creating user-friendly, responsive, and visually appealing designs tailored to meet diverse business needs. Ensured high-quality digital solutions to enhance client satisfaction and online presence.

Research & Technical Projects

CardioGraph Pro

Mar 2024 – Mar 2025

Final Year Project

- Developed an AI-based heart disease prediction system integrating **ECG signal analysis, demographic data, and machine learning models** for early diagnosis.
- Built and deployed **web and mobile platforms** (Flask, Django, React Native) with a **medical chatbot** for user interaction.
- Applied **deep learning (TensorFlow/Keras)** for ECG classification and achieved high predictive accuracy (evaluated via F1-score and AUC-ROC).
- Focused on **cloud deployment**, real-time ECG processing, and data-driven decision support for cardiovascular care.

Web Development Projects

Mar 2022 – Sep 2025

Freelance Web Development Projects

- Developed **e-commerce**, **restaurant/food service, health-tech platforms, real estate business websites** with modern, user-friendly interfaces.

Automated Traffic Signal System

Mar 2022 – Sep 2022

IoT Certification Project

- Designed and implemented an **automated traffic light control system** using Arduino and Integrated sensors to detect vehicle movement and adjust signal timings dynamically.

Achievements & Certifications

Gold Medal – BS Computer Science

Nov 2025

Minhaj University Lahore | Grade: A

- Selected for the Gold Medal in recognition of outstanding academic performance.
- Achieved one of the highest academic distinctions in the department.
- Maintained exceptional academic excellence throughout the degree program.

Internet of Things (IoT) Certification

March 2022 – Sep 2022

NAVTTC – National Vocational & Technical Training Commission | Grade: A

- Completed a comprehensive training program on IoT concepts, protocols, and applications.
- Gained hands-on experience in connecting sensors, microcontrollers, and cloud platforms.
- Developed small-scale IoT projects to monitor and transmit real-time data.

Leadership & Extracurricular Activities

Football Team Member (Department of Computer Science)

Minhaj University Lahore

- Represented the Department of Computer Science football team.
- Contributed to winning the **Departmental Football Title in 2023**.

Sports Management Volunteer

Sports Department, Minhaj University Lahore | 2023

- Assisted in organizing **Sports Week 2023**, coordinating events and team schedules.
- Received a **Certificate of Appreciation** for contribution.

Organizing Committee Member – 6th International Conference on World Religions (ICWR-2023)

Minhaj University Lahore | 2023

- Served as part of the Organizing Committee for the **6th International Conference on World Religions (2023).**
- Collaborated with faculty, administration, and international delegates to ensure smooth execution.
- **Awarded by the Deputy Chairman, Board of Governors**, in recognition of contribution.
